PROFILE SUMMARY

As a software test automation engineer with over 2 years of experience in IT, I have honed my skills in various testing approaches including functional, regression, ad-hoc, UI, exploratory, integration, and black-box testing. I have hands-on experience with JiraQA Space and have worked extensively with test documentation such as bug reports, checklists, test cases, test reports, test planning strategy, and traceability matrix. My experience extends to automation and developing testing frameworks, analyzing automation test result reports, and working within Agile methodology (Scrum, Scrumban, Kanban). I have practical experience in databases (Rest assured, Microsoft SQL Server) and have served as a QA team leader and Scrum master.
